CANADIAN NAVY IS "ATTACKED" BY THREE-MAN COMMISSION

Almost everything under the heading "Royal Canadian Navy" came in for criticism in the report at Ottawa of the royal commission inquiring into its affairs after "mutinies" aboard the aircraft carrier *Magnificent*, the *Atbaskan* and the *Crescent*. The three-man commission, Rear Admiral E. R. Mainguy, R.C.N.; Leonard W. Brockington, and L.

C. Audette, Ottawa, were appointed last spring following "incidents"—sit-down strikes—aboard three boats. Findings ranged from lack of adequate channels for airing men's grievances to "a notable lack of understanding" among officers and men. Above, *Magnificent* is seen arriving at Halifax after cruise.

—Central Press Canadian

ST. ALBERT NEWS

ST. ALBERT.—Mr. and Mrs. Humechak from Rocky Mountain House visited at A. Rosengren's last week. Mrs. Rosengren went with them to visit her folks at Red Deer for four days.

Mr. and Mrs. J. Roussault and family and Mr. and Mrs. G. LeFebvre and family were dinner guests with Fred Henry's at Legal on Sunday.

Mrs. J. Harrold has been in hospital the past week. Mrs. Harold Sr. took care of the family.

Little Victor Girard has been in hospital two weeks with a knee infection.

Armand Durand has changed from cattle raising to sheep farming.

Miss Alice Lorette Ross spent Nov. 11 in Tofield.

Mrs. Armstrong and girls of Athabasca spent the holiday at Ross Sr.

W. MacMillan thinks someone had been in their house Sunday, when they were visiting in the north.

The Women's Bridge Club met at the home of Mrs. Cuts Tuesday evening.

Tommy Barry Sr. and Jr. went big game hunting last week. Wonder what they'll bring back?

Miss Rose Iscke had an operation in the Royal Alex hospital Saturday morning.

The school has organized a patrol to supervise at the vans. A very good progress in discipline—good citizenship.

Please, Your Help Urgently Needed

ST. ALBERT.—Have your old toys, used clothing and magazines ready for the Boy Scouts to pick up.

The toys will be repaired and painted for giving to poor children, the clothing distributed by the church and the magazines given to the Old Folks home.

A good cause, don't you think? So let's co-operate.

Latest Count re Queen Crowning

MORINVILLE.—The latest count and the last till the crowning of the queen at the Legion carnival on Sunday, Nov. 20, is as follows:

First, Barbara Parker, Lions candidate; 2, Connie Como, Legion's candidate; 3, Florence Keiser, C.Y.O. candidate; Pauline Kramer, Sports Committee candidate.

All tickets must be turned in by 8 p.m., Sunday, Nov. 20. Boost your queen, get your votes in now.

C.Y.O. NEWS

ST. ALBERT.—The St. Albert C.Y.O. started their new year by the election of officers. Elected were: President, Bud Iscke; vice-president, Emma Hess; secretary, Nan Maloney; councillors, Dave Terrault, Denis Brodeur, Central representative, Paul Brodeur.

The members are having a course in "Preparation for Marriage." This course is being given by Father Labonte.

Rosie Iscke is at the hospital undergoing an operation. We all hope she will get better soon and see her at our C.Y.O. meetings once more.

Last Sunday being C.Y.O. Sunday, 24 members attended Communion Mass and afterwards breakfast was served by the Grey Nuns at the Youville Home. Waiting on the tables were Sister Lemire, Sister Beaudoin, and Sister Bastien.

We were sorry that Father Labonte could not attend the breakfast.

Our president thanked the Sisters for the wonderful breakfast which all the members enjoyed very much.

A few of our members attended the Halloween masquerade held in Morinville. All were masked. Levi Bourgeois, Roland Guilmet, August Brodeur, Denise Belhumeur and many others. All seemed to be having a wonderful time.

SNATING RINK ORGANIZED

ST. ALBERT.—There will be a skating rink this year! All organizations are co-operating to make it for the use of everyone. We hope the hockey teams and skaters will obey the schedule with us.

Family tickets will be \$5, individual \$1.50. Hockey players will pay a small extra fee. A full time caretaker is being hired by the curling and skating rink.

Free Show and Chinese Raffle

ST. ALBERT.—The free show and Chinese raffle held by the group committee of the Scouts netted \$70.86. We were pleased to have a carload of Edmonton Scout officials present.

Our boys were in uniform, the flags, pennants and charts and banners were used in decorating the hall.

We wish to thank all for their generous donations of goods and services. We missed the parents of the boys.

Students' Union Hold Elections

ST. ALBERT.—The Student's Union elected the following committees:

Sports committee—Joan Atkinson, Wilfred Perrault, Chester Cunningham.

Social committee—Nan Maloney, Margaret Joyal, Melba Borle, Wm. Bocoek, Henry Genereaux and Ivan Vestrap.

SR. BADMINTON CLUB

The Senior Badminton Club elected their officers as follows: President, Archie Durocher; vice-president, Carl Hauptman; secretary-treasurer, Mrs. Cuts.

The school have theirs on extra curricular course.

Edmonton Rural Health Unit's Third Quarterly Report

ST. ALBERT.—The following is a summary of the Edmonton Rural Health Unit's Third Quarterly Report from July 1 to Sept. 30, 1949, presented to the board at the quarterly meeting, Oct. 28, 1949.

The prevalence of measles continued at a high level into the third quarter but receded in September. Three cases of typhoid fever were diagnosed by local physicians. There were two cases of poliomyelitis in people of 9-22 years. No residual paralysis resulted.

Inoculation doses were given as shown below:

Scarlet fever	930
Diphtheria	756
Whooping cough	831
Smallpox	270
Staphylococcus toxoid	6
Typhoid vaccine	12
Mantoux tests	7

Work with the school population was actively carried on by all services from the time schools opened. The most outlying districts are first while the roads are good. The response of parents to requests for the correction of disclosed defects found in their children is good, and offers evidence of sound relations existing between our staff and parents.

Mr. MacDougall's services in schools are in increasing demand. The greater awareness of the individual teachers to the effects of the Mental Hygiene Service is expressed in this manner and is a source of satisfaction to us. Mr. MacDougall visited 53 classrooms and gave 21 talks to pupils. He interviewed 158 children privately and referred one child to the Guidance Clinic.

Two new pasteurizing plants went into operation in Morinville. Five new restaurants started operation and were approved by the Health Unit. For two applications approval was refused because of faulty premises. Films on restaurant sanitation were shown to restaurant employers and employees in Leduc. The films were well received.

Happy Birthday, Maxine!

ST. ALBERT.—Mrs. E. B. Leclair asked Lorette Alice Ross to have tea with her Saturday afternoon. What was her surprise when she arrived to be greeted with "Happy Birth to You."

Maxine had whispered to Alice's intimate friends that it was Alice's birthday. After a most delicious lunch Miss Ross was presented with a cold compact. Imagine Alice being speechless!

Those present were Mrs. Harold Sr., Mrs. Campbell, Mrs. J. Leclair, Kay Lamer, Mona Moheux, Ethel Cuts, Lillian Vague, Marie Wolniewicz, Betty Rosenberg, Doris Sumner, and Anne Flemming and Mrs. Jean Barr from Edmonton.

H. & S. Election

ST. ALBERT.—An election of officers for the formation of a Home and School Association will be held on Thursday, Nov. 17.

Slow Progress!

ST. ALBERT.—Everyone concerned with the Rural Electrification is displeased with the slow progress of the work.

Enjoyed Show!

ST. ALBERT.—Quite a few from here were lucky enough to see the Barbara Ann show. Words cannot express how well the members could skate and act, all said.

W.I. Meeting November 29th

ST. ALBERT.—Don't forget the W.I. meeting on Tuesday, Nov. 29. All wishing to join try to be present.

Held Tea Nov. 11th

ST. ALBERT.—The tea held on Nov. 11 at Mrs. Doziech's for the bazaar was well patronized. Mrs. Mahoux is serving tea at her home on Friday afternoon, Nov. 18. All are invited to come.

Skating Rink Meetings Held

ST. ALBERT.—There were two skating rink meetings last week to make final arrangements. The different organizations reported their financial aid, a schedule is in the making, tickets are being made. After the curling meeting Wednesday we expect to have a caretaker hired. Sharpen your skates, everybody!

Bingo, Nov. 27th

ST. ALBERT.—There will be a bingo in the Parish hall Nov. 27.

Wasting Highway Dollars

Since the end of the war the provinces of Canada have spent hundreds of millions of dollars developing highways. Major objectives have been two. First to permit motor traffic to move quickly and safely through settled areas of the country; second,

to open new unspoiled scenery to the tourist. In both respects, says The Financial Post, the investment is threatened. Why? Because almost as soon as a highway is opened real estate development follows. Says The Post: "Formerly widely separated towns and cities are now, in many cases, almost completely connected by a string of half acre or smaller lots on both sides of the highway. Near the bigger cities, of course, there is still more congestion and smaller lots with what were intended as high speed connecting highways, now turned into shopping streets with traffic police or lights every block or two."

"Some way must be found of keeping our provincial highways clear and also those special connecting roads which link the main highways with the larger cities."

"If we don't, we are going to find that as a traffic artery or scenic route no highway is good for more than 10 years. By that time it will be solidly built up or its scenery completely obscured by bill boards, hot dog stands and gas pumps."

FOR SALE

Two-storey building on main street in Hardisty. Suitable as shop or store with 4-roomed apartment upstairs with separate front and back entrances. \$500.00 cash—balance \$40.00 per month includes principal and interest.

CITIZENS PLAN HOUSE FOR QUADS

—Central Press Canadian
Mrs. Oswald G. Hargreaves has reason to smile four times as heartily as most mothers. Here she looks at one of her quadruplets in an incubator in a Sault Ste. Marie, Ont., hospital. So citizens, led by Mayor Hargreaves plan to build a house to present to the quadruplet's parents.

U.S. Corn

The United States Department of Agriculture has announced that corn will be supported on a national average basis of \$1.40 a bushel for the 1949 crop—reflecting 90 per cent of parity.

French Meat

The Netherlands Government Inspection Service had sent an official to France to inspect French meat to be exported to the Netherlands markets. Since the devaluation, French meat is reported to be much cheaper than meat from the dollar area. The Netherlands has been importing considerable quantities of meat from Argentina, Brazil, Uruguay and Australia.

Dutch Food Values

Since devaluation of currency, prices of some commodities in Holland are less than in Belgium. Dutch grocers are advertising in Belgian newspapers inducing Belgian housewives to shop across the border. Dutch shopkeepers are protesting this action.

SCOUT LEADER OFF TO MEXICO

—Central Press Canadian
E. F. Mills, executive commissioner for Boy Scout training at Canadian headquarters, left Ottawa on Oct. 24, for Mexico City to conduct the first Wolf Cub "Wood Badge" course in Latin America. Thirty-six scout leaders from various sections of South America are expected to attend the course. Mr. Mills, who began his scouting career in 1940, has served the scouts in the prairie provinces and at headquarters in Ontario.

New Home Bulletin

"Color in Your Home," a new bulletin prepared in the Home Designing Office of the Alberta Department of Agriculture, will meet with well deserved response from Alberta homemakers. Here is an answer to those problems of color—warm and cold, advancing and receding, and size increasing and diminishing colors. The effect of color is considered, percentage of light reflection explained, and suggestions offered for overcoming handicaps with color. Space is given to hints on color combination, to choice of color scheme and to the personalities of colors.

Proceeding through the home from the living room to dining room, kitchen and bedrooms, examples are given of suitable color combinations for walls and ceiling, floors, drapes and furniture. With the use of this bulletin you can start with upholstery, floor covering, drapes or walls, and build your color scheme for the remainder around the item selected.

Every subscriber's name stamped into a metal plate on our addressograph system.

U.K.-Soviet Trade

It has been officially confirmed in the United Kingdom that a trade agreement has been concluded with Russia, presumably on a barter basis. Britain is to receive one million tons of coarse grains. The previous contract with Russia was for 750,000 tons of coarse grains.

This quantity together with 1.3 million tons of Argentine maize will provide 2.3 million tons toward Great Britain's total requirements of six million tons of rationed feeding stuffs to be distributed in the country during 1949-50.

Cattle Marketings Up; Hogs Down

In reviewing the livestock situation to date in Current Review of Agricultural Conditions in Canada, a publication of the Economics Division, Dominion Department of Agriculture, it is reported that marketings as well as exports of cattle continue to be higher in 1949 than during comparable periods of 1948. The resulting smaller supplies of beef on the domestic market, together with smaller supplies of other meats, and continued high levels of consumers' incomes, has meant strong prices for cattle.

Inspected slaughtering of cattle during the first seven months of 1949 were 729 thousand head, compared with 724 thousand during the same period of 1948. Slaughtering in western Canada were five per cent below those of 1948, while the kill in eastern Canada to date was almost seven per cent above that of 1948.

Exports of all cattle to the United States during the January-July period were 147 thousand head in 1949, about double the exports for the same period of 1948. Exports of dressed beef during the first seven months of 1949 were 28 million pounds, compared with 42 million during the seven-month period in 1948.

Total hog marketings in Canada during the January-July, 1949 period have declined markedly from 1948 levels. In western Canada the reduced marketings, which characterized the hog markets early in the year, have continued. In eastern Canada, on the other hand, weekly slaughtering began early in July to exceed those of comparable weeks of 1948.

Average warm dressed weight of the inspected slaughter was about five pounds higher during the first seven months of 1949 as compared with 1948, but about the same as in 1947.

Exports of cured pork products to all countries amounted to 23.5 million pounds on the January-July period of 1949. In 1948 the quantity was 17.8 million pounds for the same period.

Alberta Potatoes Test High Quality

For the third year in succession, samples of Alberta seed potatoes were shipped to Oceanside, California, where they were tested for freedom from disease. Arrangements for these tests are made between the Departments of Agriculture, of Alberta and California.

W. Lebay, Supervisor of Crop Protection, Alberta Department of Agriculture, advises that 29 seed potato growers in Alberta have this year submitted samples. These samples are from the areas of Edson, Peers, Edmonton, Lacombe, Calgary, Brooks, Lethbridge and Glenwood. Lots were assembled at Lethbridge and from there the department assumes responsibility for shipment to Oceanside.

Samples may be entered for this test only by growers whose crops on field inspection have passed the requirements for Foundation A or better. The grower pays a fee of \$5.00 towards cost of the test. Shipping charges, together with the cost of treating, planting and other incidentals, are paid by the department.

During the past two years readings on Alberta potatoes have shown them practically free from disease. Since these readings are available well in advance of the spring sale of potatoes, buyers are assured of the quality of stock from which the samples are taken.

A field day held at Oceanside at the time the readings are taken attracts potato growers and buyers from many parts of the United States and Canada. While there,

For Warmer Sleeping

If you're allergic to wool there's a new electrically heated bed sheet coming on the market reports The Financial Post. Manufactured by a Canadian company, it may be spread over regular top sheet, then covered with any blanket, quilt or comforter. Automatic control maintains the degree of warmth selected, regardless of change in room temperature, it is claimed. Plugs into any A.C. outlet. Washable in warm water and suds; made of pre-shrunk muslin, and mothproof, states the maker.

ONE FIRE PREVENTED IS WORTH TWO UNDER CONTROL

About 15 per cent of Edmonton's hospital patients are in older wings where the fire hazard is serious, according to Edmonton's Fire Chief James MacGregor.

Chief MacGregor is quoted by the current issue of Maclean's Magazine as also saying that only two Edmonton hotels have properly fire-proofed stair wells.

The housing shortage is keeping several hotels which are admitted fire-traps running full blast, he states.

All but the newest apartment houses, schools and hotels, according to the Fire Chief, contain hazardous fire-spreading open stairways and non-fireproof elevator shafts.

Although Chief MacGregor admitted at the Northern Hardware fire enquiry that Edmonton was lamentably short of fire protection, and although City Hall is getting new equipment and adding new firemen to staff, Chief MacGregor's criticisms in the magazine article, "Stop This Fire Death Sacrifice," are directed at a type of thing which could only be overcome by a stringent condemnation of fire-trap buildings and an elaborate re-building program.

This type of criticism is alarming. It would be much more to the point if Chief MacGregor laid before the City Council specific ways in which fire hazards could be overcome.

Possibly even then it would require a disastrous fire with large loss of life before any real action would be taken to make the city "fire safe."

New equipment and additional firemen put the city in a better position to fight fire once it does break out.

But surely, in case of fire, an ounce of prevention is worth a pound of cure.

Now that our vulnerability to fire has been broadcast to all Canada, what are we to do about it?

EARTH FEEDS THOSE WHO FEED IT

The world's population increases at the rate of 50,000 a day. Nearly 20,000,000 a year die of undernourishment.

How can all these millions be fed? Seventy per cent of the world's population are food producers. They do not all produce the same amount of food.

The earth is man's greatest living asset. Work it for the good of all and there will be enough for all. Exploit it for yourself, and millions starve.

Throughout history a nation's attitude to the land has been a yardstick of materialism in that nation. For the earth feeds those who feed it. It gives to those that give. But it starves men or nations who try to rob it and is miserably to those who try to squeeze it dry.

The great American dust-bowls were once for hundred of miles one of the richest wheat lands of the world. Now only the cactus flowers show what man's greed does to God's land.

In Britain millions of idle or half-active acres still spotlight an idle or inert nation in a hungry age.

Rome's downfall began when the Italians quit agriculture and started to grow their bread by slave labor in Africa. The wheat from Africa was fine, but the Italians' attitude to hard work had declined. They were no longer ready to give sweat and toil to the earth in return for a smaller cash reward than they could obtain in the big cities. So the nation smashed.

But under God, mother earth is bountiful. His plan is plenty. It is not His way that there should be forced upon humanity the equal distribution of a minimum. He means to feed His children in full measure, flowing over. But it is His earth—and it has to be done His way.

We can follow the advice Moses gave his people 3,000 years ago: "If you live by God's rules and obey His orders, the land shall bear its crops, and you shall have plenty to eat."

KISS THE HOPE GOODBYE!

Now that the price of coffee has been increased—with wholesalers predicting it will be \$1 a pound retail before long our campaign for the five-cent cup of coffee loses some of its point.

Already some restaurants which were charging seven cents have advanced prices to ten cents. Coffee goes up several cents per pound and restaurants advance the price three cents per cup. How many cups are there in a pound of coffee?

Any householder may determine that coffee made in the home is not costing more than one cent per cup, even under the increased price. As for tea, 33 two-cup bags may be bought for around 40c. Restaurants do not pay as much for their coffee as householders. They may buy—and the vast majority do — special coffee for restaurants at a reduced price.

Restaurants have to wash dishes, maintain service and pay for overhead but the ratio of price to profit of at least one to nine seems to us a bit steep.

For the average man, the mid-morning cup of tea or coffee provides a rest period, greatly needed in our day and age, and which industrial psychologists state improves efficiency. Passing a few amenities over a java has also come to be a social custom. Temperance advocates would agree that it is better to have the gathering in a restaurant than a tavern.

The cost of living is high enough without our little pleasures digging deeper into our pocketbook.

Wont someone please say a kind word for the five-cent cup of coffee? We are about ready to kiss the hope goodbye.

Dear Editor

Atheism vs. The Church

Your editorial on "Evolution" was most convincing. But Mr. Froebel's letter makes assertions calling for clarification.

1. Mr. Froebel is convinced that Darwin must be right, due to the fact that Stalin and the church reject him, while one of the greatest biologists, Driesch, says: "For men of clear intellect, Darwinism has been long dead." According to Professor Dwight of Harvard University, "Many scientific men will agree that... the theory is not only unproved but impossible; the ignorant, half-educated masses have acquired the idea that it is false to be accepted as a fundamental fact."

2. Religious beliefs, based on credulity, ignorance, superstition, perversity, may serve as substitute to human knowledge in the case of the masses, but not religious beliefs, based on the authority of God and acquired by faith in the Bible, as suggested by Mr. Froebel. Religious beliefs are distinguishable, even when rejected by unbelievers.

3. In opposing belief to knowledge, Mr. Froebel identifies all religious beliefs with credulity or ignorance, and overlooks the fact that the religious beliefs of many scientists who excelled in their specific fields of scientific research, such as Pasteur, Copernicus, Galvani, Muller, Malmig, Chaullia, Fabre, Huy, Cusa, Latreille, all believers in and followers of the definite and official teaching of the Catholic Church. This church rejects the materialistic theory of evolution, the materialistic theory, the theistic theory of evolution which acknowledges God-Creator, as having given such laws to the first creation as produced in time the various forms of plant and animal life. Again atheists cannot ignore the distinction.

4. Distinction must be made also between "unquestioned acceptance of the evidence of religious teachings," based on credulity, ignorance, superstition, perversity and unquestioned acceptance of the evidence of definite religious teachings, based on the authority of God, as contained in the Bible.

5. The inaccurate and offensive utterances by Mr. Froebel in such matters reflect a naive ignorance and credulity, and justify the recommendation to ignore displaying them again, he secure a more extensive, intensive knowledge of the official, definitive religious teachings of the church he despises and of the authentic history of the believers he disregards.

Yours very truly,

Waterways, Alta.

Let the Public Know

Your editorial on the resignation of the Combines Investigation Commissioner was provocative rather than specific, but I suppose a newspaper has to be careful of libel.

It would appear "friends at court" would chiefly mean W. L. Mackenzie King, who was known heartily to approve the Combines Investigation Act.

To me, anyway, it indicates that the vested interests have decided to assert full political pressure.

INTERESTED READER,
Edmonton.

British Book Exhibition to Tour Canadian Cities

LONDON, Eng. — The British council is assembling an exhibition of 600 books for undergraduate and post-graduate study — divided almost equally between the arts and the sciences — to tour the Canadian universities during the spring term of 1950.

Cities and towns it is planned to visit are Halifax, Antigonish, Sackville, Fredericton, Quebec, Montreal, Ottawa, Kingston, Toronto, Hamilton, London, Winnipeg, Saskatoon, Edmonton and Vancouver.

The exhibition has the support of the Publishers' Association who are supplying one complete set of books. It is hoped that it will assist in reviving Canadian interest following the reduced trade in British books since the war.

Christ or Kremlin Rule? There is No Other Way

A Remembrance Day Address by The Very Rev. A. M. Trendell, Chaplain, Montgomery Branch, Canadian Legion R.E.S.L.

Thirty-five years ago today, in any man's life, yet since 1914, human society has been in a grave state of unrest. We are not free from it yet, neither do prospects appear bright or optimistic.

There is a sense of urgency abroad in the world today. We have left the placid waters of the 19th century and are caught in a quickening stream bearing us on to unknown ends.

But we are not driftwood, man has the chance and capacity to fight the stream if he wills to do so. He must, however, understand the nature of the forces he is combating. These forces are two in number: materialism and communism. Both are spiritual, both grip men's minds and souls.

Humanism is particularly prevalent in Canada and the Democracies. Its philosophy assumes that human beings not only determine the nature of the performance, but also by their own efforts bring it to pass. By this philosophy, God becomes increasingly unnecessary. He is irrelevant, and in his place men would substitute better education, better recreation, better science and social service. That man needs a Saviour for himself or for society, is regarded as a doctrine which is outmoded. Man can be his own Saviour. Such is the belief of humanism and it has penetrated deeply into our business, social and personal lives. The result is a wide spread spirit of indifference to God, the Bible and the Church.

The other enemy is Communism or the totalitarian concept of life. It too is spiritual, it's more realistic than humanism for it recognizes that man needs a Saviour, that he is incapable of lifting himself up by his own bootstraps, so they supply the Saviour, self-styled supermen. Ten years ago these supermen were ruling from the German Reich, today they are ruling from the Kremlin. This philosophy is that man cannot by his own effort win Utopia, these supermen will win it for him. But man must be implicit in his obedience, he mustn't think, act or speak for himself. If man rebels against this, he is answered by liquidation or the concentration camp. Thus to gain his Utopia he must sacrifice his freedom.

This totalitarian concept is the very opposite of Christianity, for Christianity proclaims that man's personality is sacred and his freedom must be preserved at all cost.

Because of this fundamental difference Hitler is sought to re-write parts of the Bible, and Stalin has prohibited the Bible from entry into Russia. Both Hitler and Stalin have destroyed churches and persecuted church leaders.

This poisonous cloud has in the first half of this century captured

half the world. Even in the free world that is left to the forces of freedom we have a Fifth Column in our midst which makes the Fifth Columnism of the last war appear already as child's play. Our leaders know the truth of this. Some of these enemies are known to the authorities but many are not and these stand ready to disrupt any war effort of ours before we have the chance to get started with it.

On this Remembrance Day, we look together to the second half of the century. How shall we meet it? Of one thing we may be certain, superiority in armaments will not destroy ideas. We can blast men's bodies, we can't destroy the way men think, there is only one way to deal with bad ideas and that is to have better ideas in their place.

Today Christianity and Stalin stand opposite each other, both claim the world, one or the other must be crowned King.

Humanism is purely an escape method, its motto is "Let us eat and drink for tomorrow we die." Totalitarianism demands discipline, courage and loyalty. Humanism leads to less discipline, less loyalty and to the philosophy of, "Let George do it." Its path is strewn with broken homes, delinquency, more gambling, drunkenness and prostitution of both sexes.

Every day we read the papers we find an increasing number of murders, rape and crimes of violence. This we may well be alarmed at, the drift which is destroying us from within.

As humanism is indifferent to God, so is it indifferent to God's Commandments and these are being abandoned one by one. Even now efforts are being made in this country to revise the Lord's Day Alliance Act so that we can have an open Sunday. Where this has been refused we are told that the "Blue Laws" are still in operation. No civilization has been able to survive this process of disintegration in the past and there are growing signs that we cannot stand it today.

We have nothing to oppose the encroachment of totalitarianism in our thinking, save by a return to God and to the Christian religion. We pause on this Remembrance Day to pay honor to those who fought and died for a better world. In let us be deaf at this solemn hour to the challenge that they throw to us. It is the challenge to wake up, forget our prejudices and our indifference and return to our churches and to our religion. If you don't know what the Christian religion is, let us take steps to find out, you have lots of opportunity. You once fought for a decent world, some of you died for it, now go out and live for it.

You can have Christ's rule in the world or the rule of the Kremlin, but there is no middle way. That is the plain fact as we look together into the second half of this century.

all suitable for Siwash sweaters, £1.98 lb. or over \$1.80 lb. delivered. 4. Northland sweater patterns 25c each. Adults—deer, bear, Indian design. Child's—deer, bear, dog and squirrel, dancer. MARY MAXIM, Box 125, Sifton, Man.

Nordquist, Box 61, Boyle, Alta., P.O.-29, N.S.-12-19

FOUND
WANTED—Reliable man as dealer in and around Lac la Biche. Experience not necessary. Fine opportunity to step into old profitable business where Rawleigh Products have been sold for years. Big profits. Products furnished on credit. Write Rawleigh's Dept. WG-K-69-163, Winnipeg.

WANTED—All your old shoes to be rebuilt into handsome, comfortable footwear to give you miles of carefree walking service. Send them to CORONA SHOE REPAIR, 10756 Jasper Ave., Edmonton. C.Y.-10-16

TRUCKING
FOR QUICK, efficient trucking service—any time, anywhere—call Ken Anderson, Phone 39, Hughtenden, C.N.-19

Provincially Speaking

Communism is rapidly becoming the favorite whipping post of all politicians when they can find little else to say. Latest to take a hand is Premier Ernest C. Manning. The cold war now in progress could develop into a real war, he said, in criticizing efforts on "the home front" for not playing a more prominent part in enforcing our democratic life. . . . The provincial agricultural department estimates the 1949 crop as the lightest wheat return since 1937 and the smallest coarse grains output since 1941. . . . Yet grain marketing over the North American Railways have been more than 8,000,000 bushels since August 1, according to J. M. McArthur, general manager and this is one-third of the estimated 25,000,000 bushels, a record crop for the north country. Either these statements are contradictory or the south must be taking a terrific decline. . . . A Canadian Coachways vehicle has made the first round trip from Edmonton to the North West Territories, a 1,500 mile journey via Peace River and Grimshaw, then north on the 386-mile stretch of new road to Hay River. . . . Alberta Government's over-all surplus on income and capital accounts for the fiscal year ended last March was \$7,528,303. Surplus on the income account was \$24,950,522, with net capital expenditure of \$17,422,219. Main revenues were from oil and natural gas and liquor sales. . . . The Farmers Union of Alberta has protested to railway companies shortage of grain cars in the Peace River district. . . . From September, 1945, to August 31, 1949, immigrants from overseas to Alberta numbered 25,552, compared with the total for all Canada of 339,209. . . . Since the first of this year 6,615 have arrived in the province. . . . Edmonton Chamber of Commerce is to sponsor a short course in agriculture March 1, 2, 3. The program will be divided between discussions on soil prob-

lems, weeds and livestock, and machinery displays. . . . Production of crued oil in Canada is continuing to increase but output of natural gas is dropping, according to the federal bureau of statistics. . . . Canada's population is now 13,635,000, according to the same source, Newfoundland added 348,000 persons. . . .

The Exther-Sibbald highway is now numbered the No. 9 highway. . . . Hanna now has a teen town, with an executive of six led by John Kaster as president. . . . John Deere, federal Liberal member for Vegreville in the House of Commons, attacked a textbook used in Alberta schools for a number of years. He objected to a passage which stated that "some people" believed the capitalist system was outmoded and should be replaced and that three of the more interesting alternative systems were communism, social credit and the C.C.F. type of socialism. . . . Vermilion and Olds, provincial schools of agriculture, this year have a total enrollment of 378 pupils, of which 250 are studying agriculture and the remainder home economics. . . . R. O. Sweeney of Montreal is preparing plans for a \$12,000,000 pulp and paper plant in Edmonton. . . . Alberta School Trustees Association has approved the composite type of high school as most suitable for Alberta. . . . Somewhere between 400 and 500 hunters from the United States will be issued with big game licenses this year. All hunters are required to use the services of guides. . . . Winners of the Master Farmer competitions were: Peace River, Joseph Paquet; family of Donnelly; Northern Section, Joseph Dussault family, Vinny; East Central, Jacob Melenka family of Warwick; West Central, Wilfred Edgar family of Innisfail; Southern, L. R. Jensen family of Magrath. . . . Alberta has the third lowest death rate from tuberculosis, the 30.6 per 100,000 being only greater than the rate for Saskatchewan and Ontario.

Red Cross Continues Relief to Europe

TORONTO — Canadian Red Cross relief shipments to Great Britain and the continent will be distributed through the British Red Cross Society from now on, according to Dr. W. Stuart Stanbury, national commissioner of the Canadian Red Cross.

Dr. Stanbury made the statement in contradiction of a rumor that the society would withdraw from the field of international relief with the closing of the overseas office in London, September 30th.

"Assistance to war-devastated countries and victims of large scale disaster in other lands is a first obligation of the Red Cross and we will continue to contribute clothing, food, drugs and other help as long as there is need," he said.

The London office of the Canadian Red Cross Society was established ten years ago to handle the vast war-time undertakings of the society overseas. During war years, the society distributed 13,483,887 articles of clothing and hospital supplies to Britain. Before D-day, five large warehouses outside London were packed with Canadian supplies for the troops and for liberated peoples of Europe.

At the close of hostilities, the overseas office collected 40,000 war brides and 20,000 children of Canadian service men returning home from Europe, fitted them with clothing and arranged their passage and escort to Canada. Further war-time duties included the staffing of Maple Leaf Clubs, supplying blood for transfusion, and other services for Canadian troops.

Permanent memento of Canadian generosity in Great Britain is Taplow hospital which the society erected during the war as a Canadian hospital for servicemen, with accommodation for 600 beds. It has since been presented to the British government and is being used as a research centre for rheumatic cardiac ailments in children.

HELP WANTED!

Opportunity for youth 16 to 20 years of age in the printing industry. Good working conditions. Right tools, five-day week. Paid holidays during the year and annual vacation with pay. The young man qualifying for this position must have a fair high school education, and ability to learn a trade.

Canadian Red Cross \$5,000,000 Campaign

TORONTO, Ont. — With emphasis on veterans' services, expansion of the free national blood transfusion program, and continuing medical and health aid to Canada's pioneers, the Canadian Red Cross Society will seek \$5,000,000 in its 1950 March campaign, according to Col. A. L. Bishop, chairman of Central Council.

Sixty-four veterans' hospitals and sanitariums are supplied with nearly 8,000 free movie showings yearly. Lieut. Col. John Cooper, chairman of the National Film

Service reported. Special selections are made for veterans being treated for nervous disabilities.

Some 12,377 veteran patients participated this year in more than 28,000 projects of the Arts and Crafts Service, according to Chairman D. W. Long. This diversional therapy service functions in 19 hospitals and six veterans' homes across the nation.

Highway First Aid posts have aided hundreds of motorists in accidents in the first nine months of this year, said Dr. R. W. I. Urquhart. Red Cross has 113 highway first aid posts in various parts of Canada. In Manitoba and Ontario, posts are operated jointly with St. John Ambulance Association.

Citizens generally are becoming "water safety conscious," he said, and are turning to Red Cross for assistance. This year more than 25,000 enrolled in Red Cross Swimming and Water Safety courses, and an all-time high was established in Ontario for class enrolment. Half a million dollars' worth of overseas relief shipments were handled by the society in the first nine months of this year. C. LaFleur, National Transportation Chairman, announced. This included goods handled for other voluntary organizations.

In the nine years that Red Cross has undertaken shipments of drugs, food, hospital supplies, clothing, etc., it has transported more than 93 million dollars' worth to various parts of the world.

PARIS TRIAL ENDS— GUILTY OR INNOCENT?

Last Installment of "The
 Strangest Murder Case on
 Record"

The second Paris Trial brought out some new evidence. Alex Day said that on Aug. 2 he saw a man who looked like Paris with two little girls on a little land near Douglas avenue. John McDonald said that Paris asked him for \$2 both on August 1 and again on Aug. 2, in St. John, telling him on the first occasion he had just got back from Truro. Paris denied this.

CONFLICTING DATE

Alonso Bagnall said he saw Paris at the garage where he sold the stolen gasoline on July 31. Paris placed this date as Aug. 2. In his testimony, Paris at this trial went on to tell what he had done until 12 o'clock the night of Aug. 2. In the first trial he said he left Truro that evening. When this was called to his attention he said he was mistaken in the first trial, he left Truro on the 3rd.

POLICE CHIEF IN EVIDENCE

It was pointed out by the Crown that although Chief Fraser had said he was talking to Paris on Aug. 2 in his testimony, in a wire to St. John police when he was seeking Paris for the gasoline theft he said he did not know where Paris was on Aug. 2.

Paris' testimony was now that

he left Truro for St. John on an excursion train the night of the 3rd. He said he travelled with Archie Paris, white, of Truro, and although Archie Paris was not a witness at the second trial, he was a witness at the two subsequent trials and corroborated Paris' statement.

SAW PARIS ON TRAIN

Albert Martin and John A. Maxwell said they saw Paris on the train, and Gordon Hayman saw him at Truro station. But William Capson, conductor of the train, to whom Paris said he told a hard luck story to get his fare, denied having any such conversation.

Dr. McCurdy, reputable medical practitioner of Truro, brought his day book to show that he had visited the home of James Clyde on Aug. 1 and 2. He said he saw Paris on the second visit.

CROWN COMPLICATES MATTERS

At this point the Crown complicated matters by bringing out that there was another Negro in Truro by the name of John Paris. It was shown however, that the other John Paris was a much older man and in no way resembled the accused. Dr. McCurdy admitted there were about 1,000 Negroes in Truro but said that none of them closely resembled the accused. He was positive in his identification that it was the prisoner in the box he saw on Aug. 2, in Truro.

ACCUSES HUMPHREY

Paris and Humphrey, the chief "protagonist" as it were, complicated matters on their own account when Paris alleged that Humphrey offered him money to murder the husband of a woman with whom Humphrey was said to be familiar, and Humphrey testified that he had been attacked by a Negro shortly after the McAuley murder was discovered.

The defence scored a distinct point when employees of the Eastern Hat and Cap Company corroborated Paris' statement that he had visited the offices on Aug. 2. Miss Christina McKenzie, bookkeeper, produced a record of a receipt issued to Paris on that date and said she remembered giving it to him personally. Paris had worked for Warren Ogilvie, manager of the company, and Mr. Ogilvie said that Paris had asked for money due him on that day.

VERDICT OF GUILTY

In spite of the fact that the defence had seemingly solidified its position in the second trial, the jury, after deliberating four hours, brought in a verdict of guilty.

Subsequent trials did nothing much to alter evidence or the position of Crown and defence in the Paris murder charge. Additional evidence was produced on both sides. For instance, Norman Green said he saw Paris coming out of his house in Carleton shortly after midnight on Aug. 2, while William McNaughton swore he paid Paris 90 cents at the Eastern Hat and Cap Company offices on Aug. 2 and said "there was no possibility of mistake" in the date; let Luther R. Smith said he saw Paris near the scene of the crime on Aug. 2.

DEFENCE POSITION

The position of the defence was that Paris was in Truro during the first three days of August, leaving for St. John on the night of Aug. 3. The Crown's theory was that Paris left St. John for Truro on Aug. 3. Laura Johnson, with whom he lived, the Crown contended, could have told him who was on the excursion train from

Truro to St. John on the third.

FOURTH TRIAL

At the fourth trial 10 of the jury were for conviction and two for acquittal. At the fifth trial three were for conviction and nine for acquittal.

Was John Paris innocent or guilty of murder? After four juries composed of 12 good men and true, were unable to make up their minds, it would be highly presumptuous for any one person to judge.

Paris himself is probably the only person who could say definitely. Naturally, even if he were guilty he is not after all these years going to confess, for he could still be tried. And for him to protest his innocence again would still not satisfy some doubting Thomases. So the question will probably always remain a mystery.

A far greater mystery, however, is how so many people (not all have been mentioned) consciously or unconsciously could commit perjury.

For the Crown witnesses it must be assumed that the perjury was purposeless. It is hardly conceivable that a large number of people would ruthlessly condemn a man to death by their testimony unless out of a spirit of revenge, and there was no reason to suspect the latter.

As for the defence witnesses, their calibre in more than one instance placed them above the suspicion that they were simply lying to help a murderer because they knew him. And a surprising amount of the date corroboration was in writing.

It can not even be stated that the juries followed that tradition of British justice and gave the "reasonable doubt" to the accused. They were simply unable to make up their mind.

Are you in any better position? The situation may never again be duplicated before the courts. Certainly its like was never seen before.

THE END.

Why is it, when men or women act like children, they always imitate the worst traits of childhood?

A lot of experts are talking about things they don't know much about.

SEVEN LEAGUE BOOT

If You're Going To Italy

Plenty of money is available for trips to Italy, it is announced from Ottawa in The Financial Post. Even before the announcement, plans were afoot to organize great pilgrimages of Canadians to Italy next year. Now, Canadians planning to visit Italy purchase Canadian dollar travelers' cheques for any "reasonable" amount and present these at banks or hotels in Italy to pay their bills.

Tourist Splurge

Purchases by Canadian tourists in the United States during August hit an all-time monthly peak. The Financial Post is informed. Using their \$100 exemption, returning Canadians declared purchases to a value of \$4,175,000 in that month.

Almost \$2 millions of this was spent on clothing. There were also close to 10,000 radio sets brought into Canada in that month; half a million dollars worth of household furniture; \$347,000 of boots and shoes, and \$1 million in miscellaneous items.

For the first eight months of 1949, the dollar total of declared Canadian tourist purchases is about \$16.4 million; more than was brought in the entire calendar year 1947.

Argentine Currency

The government of Argentina has announced a devaluation of her currency in terms of United States dollars. The reduction varies widely as applied to individual commodities and to exports and imports. Even before devaluation there were no less than eight different rates for exports and imports. It is probable that under the new arrangement there will be ten.

Protect Your Children

Youngsters are intensely curious and love nothing better than to experiment with knives, razor blades, ice picks, matches and rat poison. Because of this very natural curiosity, parents should see that such dangerous items are kept out of reach or, better still, locked away. Blunt, small scissors with rounded ends are best for children's cut-out games. Safety in the home is an important practice. More accidents occur in the home than any place else.

The Price We Pay

Crowded, crooked irregular permanent teeth are frequently part of the price that must be paid for the premature loss, through lack of adequate care, of the baby teeth. Don't allow your child to become a dental cripple by believing in the myth that the foundation teeth are of little importance. Make sure your child visits the dentist at least twice a year. Brushing the teeth is one way to keep them clean and healthy. To be effective, brushing should be done after every meal.

Diet In The Declining Years

As a person grows older he usually becomes less active and has less need for energy foods. But he still needs the same amounts of foods containing vitamins, minerals and proteins. The elderly persons needs foods that are easily digested and some senior citizens get along better on smaller meals with mid-morning and mid-afternoon snacks. Good feeding does not happen by chance. Make your family is getting the proper foods for health.

Belgian Meat

The contract between Belgium and the Argentine, which is now about a year old, included 40 thousand tons of Argentine meat, of which only a quarter has been delivered so far. It is reported that with more meat available in Europe, Belgium may not extend the agreement to include the unfilled portion of the contract.

Wife Preservers

For best results in machine sewing on sheer rayon fabrics, such as chiffon, nylon, net and fine crepe, use a fine needle and set the machine for 20 stitches per inch.

New C.Y.O. Executive Named Recently

VIMY — Election of a new executive for the Vimy C.Y.O. was the main item of a general assembly held last Thursday.

The new executive is as follows: President—Miss Germaine Dussault.

Vice-president — Paul St. Arnaud.

Secretary-treasurer — Hilaire Fortier.

Spiritual Committee — Clemence Bernard and Armand Provencal.

Social Committee — Juliette Bernad, Leon Blanchette, Denise Casavant and Robert Carriere.

Recreational Committee — Marcel Landry, Gertrude Chevrier, Marcel Bernard and Annette Laplante.

Albert Blanchette voted a thanks to the old executive for their work.

A C.Y.O. short course will be held at Westlock the 18th, 19th and 20th of this month.

VIMY VIGNETTES

The annual divisional school meeting was held last Monday. Reports were given by Mr. Paul Chauvet, Mr. Scott and Mr. Meaden followed by discussions. There was a fair turn-out, but we can't say it was good until at least 75 per cent of the ratepayers and parents attend such meetings.

There are at least three new vehicles in the district. Mr. Albreda Fortier has a new 1949 two-tone Ford car; Mr. W. Seguin, a new '49 one-ton Dodge truck, and Mr. Parent, a new Mercury sedan.

The Vimy hotel now has a new cooler system installed adjoining the bar-room.

This month will see the teacher population rising to a new high? Four practise teachers attending university are now getting pointers and "learning the ropes" at first hand for a week. Four such groups are expected this month.

Massey-Harris Dealer Reads Wall Street Journal

LEGAL — Lucien Provost, popular legal businessman and Massey-Harris Farm Implements dealer doesn't want to high-brow anybody. But that doesn't stop him from getting the Wall Street Journal delivered to his office, by mail of course, direct from the capitalist world's capital, each day.

In view of the fact that Mr. Provost stoutly maintains the Legal Record is a much more interesting paper than the Wall St. Journal, we don't mind. But what we'd like to know is: "What does Mr. Provost read in the Wall St. Journal when he reads the Wall Street Journal?"

New F.U.A. Delegates For the Calgary Convention

LEGAL — A Junior Farmers' Union of Alberta meeting was held at Legal recently. With President Walter Van De Walle in the chair, the Legal Junior F.U.A. was called to order. Secretary Louis Chauvet read the minutes of the previous meeting. Steve Ostosowich and Ernest Forcade were chosen delegate and alternate delegate to the F.U.A. convention in Calgary. A fair number of young farmers were in attendance.

Editor's Old Friend Now at Legal

LEGAL — During the recent war L. J. Hayes of the Bank of Nova Scotia was flight-lieutenant in the office of paymaster in the Royal Canadian Air Force overseas. While in service he met up with Flight Lieutenant L. H. Jenkins, who also was in the R.C.A.F. in the historical records department.

Mr. Hayes is now provisional or relieving manager of the Bank of Nova Scotia at Legal while Mr. Jenkins is now editor of Community Publications, publishers of the Legal Record.

F. G. McCann, who has managed the Legal branch of the bank since its opening in September, 1948, has had a siege of illness and has been in hospital in Edmonton. It is expected he will be well again soon and back at his desk about December 1st.

Big Wedding Reception at the Corona Hotel

A lovely morning bridal was solemnized in St. Benoit church in Pickardville Tuesday, Nov. 8 at 10:30 a.m. when Miss Rita Racine, daughter of Mr. and Mrs. Arthur Racine of Pickardville, became the bride of Mr. Albert Prefontaine, son of Mr. and Mrs. Rene Prefontaine of Legal. Rev. Father Barbeau performed the ceremony.

Given in marriage by her father, the bride wore a lovely long gown of moire taffeta, fashioned with a slim bodice, split neckline and long fitted sleeves, with a full skirt. Her veil of net matched her lovely gown. She carried a lovely bouquet of red roses and white carnations.

Attending her was Miss Doris Racine, wearing a gown of pale green moire taffeta with matching hat.

Best man was Mr. Lois Prefontaine, brother of the groom.

A big reception for more than 125 guests was held at the Corona hotel at 12:30 in the afternoon. A three-tiered wedding cake embedded in white tulle and flanked with slender ivory tapers centred the bride's table.

Toast to the bride was proposed by Rev. Father Dechamplain, uncle of the groom.

A big dance was held that evening for the bride and groom in Legal. The newlyweds will make their home in Legal.

LEGAL NEWS

LEGAL — Mr. and Mrs. Denis Daoust (relations of Mr. and Mrs. Paul Mahe from Legal), together with Mr. David Vallee, who is 86 years young, have left St. Lina to make their new home in Legal.

Miss Cecile Durante, former employee of the Co-op Store, has resigned for this winter.

C.Y.O. School at Morinville and Westlock

LEGAL — The C.Y.O. Club met last Monday, Nov. 7. The highlight of the meeting was the appointment of Lorette Belley as treasurer of the club.

Eight C.Y.O. members were nominated to participate in the C.Y.O. schools which will be held at Westlock Nov. 18, at 19:20, and at Morinville Dec. 9, 10, 11.

N.B.—The continuation of our monthly communion is now to be held at the hut every first Sunday of the month.

First C.Y.O. Dance In the New Hall Coming Up!

LEGAL — The big event of the season — the "Sno-Ball" Dance, sponsored by the Legal Catholic Youth Organization is scheduled for Friday, November 25th.

President Walter Van De Walle announced that special prizes will be given as lunch prizes. Dancing will commence at 8:00 p.m. and lunch is to be served at midnight. Tickets are now available from any of the C.Y.O. members at \$1.00 per couple.

New F.U.A. Organization For Different Areas

LEGAL — Walter Van De Walle, director for F.U.A. District No. 5, will begin organizing Junior F.U.A. locals in the area between Westlock and Edmonton this month.

Big Annual Rummage Sale by W.C.L. in New Church

LEGAL — The big event of the season, the annual rummage sale, sponsored by the Women's Catholic League, is scheduled for Sunday, Nov. 27.

President Mrs. Roy Gregoire announced that lunches will be served from 2:00 in the afternoon (till 10:00 p.m.). Games, etc., will take place in the afternoon with a big concert at night.

More details in next issue.

Council Happenings Of M.D. of Morinville No. 91, for October

WALTER ELLETT

Field Supervisor

WEED INSPECTORS

All five weed inspectors were interviewed, reports compiled, releases made where warranted on land under "Notice" and "Notices to Prohibit Seeding" for 1950 drawn up but the latter have to be re-checked before mailing. Land under "Notice" was inspected from time to time during summer and late into fall to assure work was continued. There are several parcels that did not qualify for a release.

SEED CLEANING PLANT

Good progress is being made on the construction of the seed plant. The board of directors are active in attending to details, especially Nan Douzich, manager-operator, whose efforts are contributing in no small way to the speedy completion of said plant. I made several trips to Selvy Lumber Supplies in order to hasten delivery of materials, the bulk of which is now delivered. It is quite evident that Ed Anderson, builder, knows his business of supervising construction. A considerable amount of my time was taken during October as secretary-treasurer and director of the seed plant.

SEED GRAIN

The seed grain situation is serious, there being few farmers who have supplies sufficient even for their own use. To date orders for seed oats at this office total 5526 bushels and for 1647 bushels of barley while offers for sale are 375 bushels of wheat, 4700 bushels of barley and 1000 bushels of oats. I understand that even larger quantities have been ordered through Mr. Fontaine's office in Edmonton to which address the circular letter was made. No doubt tremendous quantities of seed grain will have to be shipped in before spring at germination tests are very poor even on the

heavier grain that was cut after the Sept. 10 frost.

ROADSIDE MOWING

The mowing of roadsides is now concluded and some 100 miles of road were cut. Having the weeds and grass mowed prevent a lot of snow drifting onto these grades. The Pony Tractor gave a good account of itself on this work.

POUND CASE

The pound case of Edwards vs. Knaga was investigated by Councilor Perrott and myself on Oct. 26 and while no apparent damage could be seen, Mr. Edwards will have a loss if his registered cow has a calf from Knaga's bull. Proof of damage, however, is very hard to determine and the Act is not specific enough in this respect. The purebred Sire Area Act in this district would eliminate a lot of trouble of this kind.

Frame Building Destroyed

MORINVILLE — A fire of unknown origin completely destroyed a frame building and contents early Sunday morning on the farm of Mr. Adelard Houle.

Congratulations!

MORINVILLE — Art Chalfoux went big game hunting last week and believe it or not he really brought back the bacon—pardon us we mean the moose. Good going Art.

Warning to Local Motorists

MORINVILLE — Boys, lock your cars when parking, even in Morinville. Ask Johnnie Bokenfor. He knows.

Some thief wanting to joy ride calmly drove away with Johnnie's car about 3 a.m. one morning. It was found about a week later in a ravine near Edmonton. The fellow must have run out of gas.

So boys and girls if you want to keep your car at home, lock it.

Back in Hospital

MORINVILLE — Frenchie Chalfoux is back from a short visit to the hospital in Edmonton where she was treated for a throat infection.

MORINVILLE NEWS

MORINVILLE — Mr. and Mrs. A. Steffes have left for Seattle where they will spend the winter months with their two boys who are attending college there.

Dr. and Mrs. P. Schmidt and son Nicky of Ryley, formerly of Morinville, spent last Friday visiting the St. Germain's.

Two new oil crews are moving into Morinville and are to start drilling near here.

Mr. and Mrs. Ernie St. Laurent are the proud parents of a baby boy, Oscar. A brother for young George. Congratulations.

Mr. and Mrs. Roger Roi (nee Madeleine Houle) are visiting the latter's parents, Mr. and Mrs. Isidore Houle, for a few days.

Construction of Fire Hall Started

MORINVILLE — Construction on the new fire hall situated directly back of the post office, has started. Soon Morinville will have their much needed fire protection and roadmen only knows it is needed how as we have had so many fires lately.

FOR SALE

We have several good homes for sale in St. Albert at reasonable prices. Some on terms.

Come in and talk over your requirements. We may be able to help you.
